*The Diocese of Sheffield Academies Trust (DSAT) is an equal opportunities employer. We support the fair treatment of staff, irrespective of gender.*

The gender pay gap is defined as the difference between the mean and median hourly rate of pay the male and female colleagues receive.

The mean pay gap is the difference between average hourly earnings of men and women.

The median pay gap is the difference between the mid points in the ranges of hourly earnings of men and women. It takes all salaries in the sample, lines them up in order from lowest to highest, and picks the middle-most salary.

*As at March 2019, The Diocese of Sheffield Academies Trust has 307 employees. 89% are female and 11% are male.*

|             | Mean Pay Gap               | Median Pay Gap             | Lower Quartile | Lower Middle Quartile | Upper Middle Quartile | Upper Quartile |

*No Bonuses were paid to any member of staff in the reporting period*

DSAT uses pay scales for all teaching staff that are aligned to the School Teachers Pay and Conditions document, which is reviewed on an annual basis. For non-teaching support staff, DSAT uses the pay scales set by the National Joint Council for Local Government Services. Staff move through the pay scales for their grade based on a thorough and robust performance management process, meaning earnings are based on performance outcomes, irrespective of their gender.

DSAT has a higher proportion of females in every quartile, including the upper quartile. The mean gap is minimal but the slight median gap is caused by less males in the lower quartile or lower paid positions.
